R 25 E

Scale - 1 : 24,000

This map is compiled on 1993 orthophotography by the U.S. Department of Agriculture, Natural Resources Conservation Service, and cooperating agencies. Coordinate grid ticks and land division corners, if shown, are approximately positioned. The USDA is an equal opportunity employer and provider.

The depicted soil boundaries and interpretations derived from them do not eliminate the need for on-site sampling, testing, and detailed study for intensive uses. This soil map and its interpretations are intended for planning purposes only.
